Experience

MovingBlocks- Terasology	*Open Source*
GOOGLE CODE-IN MENTOR	*Nov. 2016 - Jan. 2017*

- Involved as one among 12 mentors for the MovingBlocks Terasology organisation in its first Google Code-In participation, which is a pre-university level Google Summer of Code. Enthused in the students the spirit of Open Source and community building.
- Extensively coordinated and assisted in reviewing a total of 606 tasks from 222 students across the globe.
- Authored and edited various tasks. Documented guides to aid students in easy setup and getting started.

SAFE App, Research and Development Project	*IIT Bombay*
UNDER PROF. BHASKARAN RAMAN	*Autumn 2016*

- Worked for the development of an app which can revolutionize the way online paperless tests take place in educational institutions.
- Built a part of the Android app which shows previous quiz results. Performed extensive testing and added new features.

Kibo	*Mumbai, India*
FULL STACK DEVELOPER	*Feb. 2016 - June. 2016*

- **Project Awaaz**, a non-profit initiative to create an audiobook repository for the blind. Anybody can record text by reading out uploaded content and the recordings would be compiled, stiched and distributed.
- Built the backend for www.projectawaaz.org and www.kibo.in using the Django framework. Designed responsive websites using jQuery, HTML and CSS. Worked extensively on the Android app for Project Awaaz and handled server side integration.

Development Projects

LendIt	*Microsoft Code.Fun.Do*
DJANGO, JQUERY, HTML, CSS	*Autumn 2016*

- Designed a web application that builds a lending platform to bridge the gap between lenders and borrowers.
- Through LendIt one can find people around who wish to lend out books or other shareable commodities and perform a safe exchange.
- Incorporated an OTP and caution money mechanism to make the transaction fool-proof and secure.

EVENTual	*Institute Technical Summer Project*
	IIT Bombay
ANDROID, DJANGO, JQUERY, HTML, CSS	*Summer 2016*

- Created a platform for creating and sharing events easily, automating the task of filling details in the calendar by generating shareable links and QR Codes.Made a web interface www.eventual.co.in to facilitate creation and searching of events.
- Developed an Android app which would pick up sharable links and scan QR Codes, to automatically add the event to calendar.

MooDLD	*UG Academic Council IIT Bombay*
ANDROID, WINDOWS, LINUX, OSX	*Sep. 2015 - PRESENT*

- Made a Moodle downloader in Python using Tkinter GUI for downloading shared course files on Moodle.
- Developed an Android application for the same using Asynchronous tasks and multiple user customization features.

Achievements

2016	**Runner Up**, Microsoft Code.Fun.Do institute wide hackathon	*IIT Bombay*
2016	**5th Place**, Hack InOut- out of 1000+ teams in nationwide hackathon. (3-person team)	*NIT Surat*
2015	**2nd Place**, Lenovo Game Jam- institute wide Game Development hackathon (2-person team)	*IIT Bombay*
